## School Board Elections: October 6, 2009

### Deborah Prickett for Wake County Board of Education, District 7

As a parent who has personally experienced the sacrifice and stress of an unstable school environment and constant reassignment for so called "healthy schools" sake, I feel that change in the current Board of Education vision is crucial. "Healthy students" should be our focus. Parents have a right to be respected and listened to as they know what is best for their children.

#### We need a board that:

- Puts education first
- Supports neighborhood schools with family-friendly calendar options
- Collaborates with and values input from parents
- Identifies and implements best practices
- Makes ethical decisions
- Uses good judgment in spending our tax dollars

**Join me in making a much deserved change in Wake County.**
