

ROCK BOTTOM

Some 300 Bedford area parents signed a petition to the School Board asking to be heard about the reassignment of their children from nearby Wakefield High School to Heritage High. Kevin Hill refused to meet with us and emailed the principal at Heritage that he intended to “stonewall” them and their petition. Heather Losurdo will listen to her constituents and advocate for their needs. ***Is that any way for a Representative to treat his constituents?***

Baileywick Elementary School is a high needs declining enrollment school in Raleigh that deserves Federal funding under the needs-based formula instead of being funded on a per pupil basis. Hill has refused to advocate for them, so they have been unable to get the funds and resources they need. ***Is that any way for a Representative to treat his constituents?***

Wakefield Elementary School parents would like their school put back on a traditional calendar, to conform with that of Wakefield Middle School and ease confusion in families with children in both. Hill has ignored them over and over. ***Is that any way for a Representative to treat his constituents?***

Heather Losurdo will listen to her constituents and advocate for their needs.
