Dr. Ed Dunlap, Jr.
Executive Director
North Carolina School Boards Association
Post Office Box 97877
Raleigh, North Carolina 27624-7877

Dear Dr. Dunlap,

On Tuesday, June 21, 2011, the Wake County Board of Education unanimously supported my recommendation to rejoin the North Carolina School Boards Association (NCSBA). This decision was made based on the support and services that the NCSBA offers.

In public education, we are at an important crossroads in ensuring success for every child. The North Carolina School Boards Association provides updates on recent legislation, legal matters and policy, as well as opportunities for related training that we believe will be beneficial in expanding our understanding of the issues. Our previous experience with the NCSBA was that these opportunities were always timely and provide needed information for boards and their staffs. In addition, having the opportunity to unite with other Boards across the State in promoting the school board governance point of view is critical to all members of the Wake County Board of Education.

Again, the Wake County Board of Education looks forward to working with the staff at the North Carolina School Boards Association as well as the other boards representing the districts across the State.

Warmest Regards,

Ron Margiotta
Chair
